## Infotext

Luciano's Cadenza Lab keeps up heat with a collaborative EP from rising stars Pablo Marco and Hash Hendrex.

Hendrex, originally from Florida, has embraced the Vagabond lifestyle with stints in Ibiza, London and now Bucharest, working the dancefloors across Europe and beyond. Pablo Marco has been busy with his own projects, having previously produced for labels like Fathers & Sons and Kina Music, as well as a range of music for art galleries, contemporary dance and film.

'Time' finds the duo entering cinematic territory, exploring the solid groove over the course of 10 minutes. Haunting vocals phase in and out, ethereal pads loop to perfection, whilst the bubbling bass line keeps the track dancefloor focused. Perfect warm up vibes...

The second collaborative effort, 'Who', adds more energy to the release with a pulsing bottom end and bright and snappy percussion building the foundations for an inventive and hypnotising club cut.

'Plant City' finds Hash Hendrex take the reins on this solo composition; a heavyweight break beat underpins the chilled aesthetics of the song, with its swirling pads and dense ambient vibes cutting through the industrial sized beats.
